## REPORTING SUSPICIOUS ACTIVITY

Many crimes can be prevented by reporting suspicious activity to the police non-emergency number at **777-3333**. Crime prevention is more than just a police officer's job. It's the responsibility of all of us who live, work and do business in Oakland. When you see a crime in progress do not hesitate to call the police **9-1-1** or **777-3211** the seven digit emergency number. Give the location, details of the activity, and a complete description of the person(s) involved.

The following information may help you determine what kind of activity should be reported to the police.

### SUSPICIOUS PERSON

A suspicious person is anyone who loiters in your neighborhood, place of business or someone going door-to-door. The person may be male or female dressed in any manner, of any age, race, color or cultural background.

Frequent visitors coming and going from a particular house, apartment or street corner especially at odd hours on a daily or regular basis could indicate illegal drug activity. You can call the drug hotline, **238-DRUG** to report what you have observed. Your information will be recorded on an answering machine. You **do not** have to leave your name or address. Hotline messages are reviewed daily.

Never invite a stranger into your home without asking for identification, even if the person is dressed in a company uniform. Ask all salespersons and repair people for their identification. Call the company to verify if you did not personally request their service.

- Do not accept the phone number they give you, look it up in your telephone book or call information.
- Do not accept excuses or sales pitches such as, "this is a one time offer or free gift with purchase."
- Do not let a stranger into your home to use the telephone even if they say it's an emergency, you make the call.
- Call the police to report a stranger at your door.
- Do not get involved with anyone who asks you to show "good faith money."
- Do not purchase property from someone on the street. If the sale price sounds too good to be true, it usually is. Often these items will be stolen property.

### SUSPICIOUS VEHICLES

Record the license plate number and/or description of any unfamiliar cars parked in your neighborhood and alert your neighbors.

Be alert for cars cruising or circling your block. They may be driven by a burglar looking for any easy targets or opportunity.

Frequent car traffic/occupant visits for short periods of time to a house, apartment or street corner could indicate drug activity.
